SUBJECT INDEX TO VOLUME 64, 1985

Explanation of symbols:

The page number on which an article begins is listed at the end of that article.

Page numbers followed by (*) indicate the proceedings of the International Workshop on the Biology of Dentin and Pulp.

Page numbers followed by (+) indicate a winner in the Edward H. Hatton Awards Competition.

Page numbers followed by (#) indicate speeches made at the IADR/AADR joint session in Las Vegas, Nevada, March 21–24, 1985.

ABSTRACTS

Divisional abstracts. 638

ACID-ETCHING, DENTAL

Internal morphology of surface zones from acid-etched caries-like lesions: a scanning electron microscopic study. Hicks, M.J., *et al.* 1296

New method for sealing composite resin contraction gaps in lined cavities, A. Torstenson, B., *et al.* 450

Uptake and retention of aluminum by dental enamel. Kleber, C.J., *et al.* 1374

ACTINOBACILLUS

Effects of dietary carbohydrates on the numbers of *streptococcus mutans* and *actinomyces viscosus* in dental plaque of mono-infected gnotobiotic rats. de Jong, M.H., *et al.* 1134

In vitro attachment, salivary agglutination, and surface fibril density of fresh *actinomyces* isolates from two distinct oral surfaces. Ellen, R.P., *et al.* 799

Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377

Rapid identification of periodontal pathogens in subgingival plaque: comparison of indirect immunofluorescence microscopy with bacterial culture for detection of *actinobacillus actinomycetemcomitans*. Bonta, Y., *et al.* 793

Stimulation of human peripheral blood lymphocytes by oral bacteria: macrophage and T-cell dependence, The. Baker, J.J., *et al.* 906

ADENOSINE CYCLIC MONOPHOSPHATE

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881

Cyclic adenosine 3', 5'-monophosphate levels in human parotid saliva at different secretion rates. Mornstad, H., *et al.* 441

Effect of NaF on rat parotid gland amylase activity and cAMP concentration *in vitro* and *in vivo*. Shahed, A.R., *et al.* 1126

AGING

Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377

ALCOHOL, ETHYL

Chemical softening and wear of dental composites. McKinney, J.E., *et al.* 1326

ALDEHYDES

Effect of alternatives to formocresol on antigenicity of proteins, The. Ranly, D.M., *et al.* 1225

ALUMINUM AND ALUMINUM SOLUTIONS

Dissolution studies of human enamel treated with aluminum solutions. Putt, M.S., *et al.* 437

Uptake and retention of aluminum by dental enamel. Kleber, C.J., *et al.* 1374

ALVEOLAR RIDGE AUGMENTATION

Histologic evaluation of tissue response to hydroxyapatite implanted on human mandibles. Beirne, O.R., *et al.* 1152

AMELOBLASTS

Correlation of apical and lateral membrane modulations of maturation ameloblasts. Skobe, Z., *et al.* 1055

AMELOGENESIS

Changes in the fluoride-induced modulation of maturation stage ameloblasts of rats. DenBesten, P.K., *et al.* 1365

Some physico-chemical properties of deciduous enamel of children with and without pre-natal fluoride supplementation (PNF). LeGeros, R.Z., *et al.* 465

AMINO ACIDS

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

AMYLASES

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881

Effect of NaF on rat parotid gland amylase activity and cAMP concentration *in vitro* and *in vivo*. Shahed, A.R., *et al.* 1126

ANALYSIS OF CO-VARIANCE

Analysis of co-variance in caries clinical trials using groupings of teeth. Worthington, H.V., *et al.* 102

Caries prevalence in Turner's Syndrome (45,X females). Takala, I., *et al.* 126

ANALYSIS OF VARIANCE

Alternative interpretations of water sorption values of composite resins. Fan, P.L., *et al.* 78

Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24

ANTIBIOTICS

Adsorption of antibiotic TA to dental hard tissues. Manor, A., *et al.* 1371

Antibiotic susceptibility of anaerobic bacteria from the human oral cavity. Baker, P.J., *et al.* 1233

ANTIBODIES

Immunocytochemical study of the human odontoblast process using antibodies against tubulin, actin, and vimentin, An. Sigal, M.J., *et al.* 1348

ANTIGENS

Antigenic variation of indigenous streptococci. Beem, J.E., *et al.* 1039

ANTIOXIDANTS

Effect of anti-oxidants on growth and lactic acid production by *streptococcus mutans*. Kupp, L.I., *et al.* 1016+

AUTONOMIC AGENTS

Mouse parotid gland preparation: an *in vivo* pharmacological tool, The. Bobyock, E., *et al.* 1121

ANXIETY

Study of factors associated with changes in dental anxiety, A. Kent, G., *et al.* 1316

AUSTRALOID RACE

Dental attrition and craniofacial morphology in two Australian aboriginal populations. Richards, L. 1311

Intercuspal distances of maxillary pre-molar teeth in Australian aboriginals. Townsend, G.C., *et al.* 443

BACTEROIDES

Glycylprolyl dipeptidylaminopeptidase from *bacteroides gingivalis*. Abiko, Y., *et al.* 106

BIOMEDICAL RESEARCH

From mice to men. Goldhaber, P. 947#

BLACKS

Economic specification of cost estimates in dental programs. Doherty, N.J.G., *et al.* 922

BONDING, DENTAL

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405

Bond strength of composite laminate veneers, The. Walls, A.W.G., *et al.* 1261

Composite resin compatibility and bond longevity of a dentin bonding agent. Chan, D.C.N., *et al.* 1402

Dentin-polymer bond in resin fillings tested *in vitro* by thermo- and load-cycling. Munksgaard, E.C., *et al.* 144

Dentin-polymer bond promoted by gluma and various resins. Munksgaard, E.C., *et al.* 1409

Effect of five-year storage prior to bonding on

BACTEROIDES

Glycylprolyl dipeptidylaminopeptidase from *bacteroides gingivalis*. Abiko, Y., *et al.* 106

BIOMEDICAL RESEARCH

From mice to men. Goldhaber, P. 947#

BLACKS

Economic specification of cost estimates in dental programs. Doherty, N.J.G., *et al.* 922

BONDING, DENTAL

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405

Bond strength of composite laminate veneers, The. Walls, A.W.G., *et al.* 1261

Composite resin compatibility and bond longevity of a dentin bonding agent. Chan, D.C.N., *et al.* 1402

Dentin-polymer bond in resin fillings tested *in vitro* by thermo- and load-cycling. Munksgaard, E.C., *et al.* 144

Dentin-polymer bond promoted by gluma and various resins. Munksgaard, E.C., *et al.* 1409

Effect of five-year storage prior to bonding on

enamel/composite bond strength, The. Williams, V.D., *et al.* 151
Erosion test for dental cements, An. Walls, A.W.G., *et al.* 1100
Structural changes in the oxidation zones of gold alloys for porcelain bonding containing small amounts of Fe and Sn. Ohno, H., *et al.* 67
Surface free energy of oral streptococci after being coated with saliva and its relation to adhesion in the mouth, The. Weerkamp, A.H., *et al.* 1204
Thermal stress failure of porcelain bonded to a palladium-silver alloy. Walton, T.R., *et al.* 476
Time-dependent deformation of composite resins—compositional considerations. Ferracane, J.L., *et al.* 1332

CALCITONINS

Failure of PTH, calcitonin, or vitamin D metabolites to influence calcium transport in the maturation stage enamel organ. Bawden, J.W., *et al.* 1138

CALCIUM

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881
Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24
Micro-analytical determination of pH, calcium, and phosphate in plaque fluid. Rankine, C.A.N., *et al.* 1275
New microsample grinding technique for quantitative determination of calcium and phosphorous in dental enamel, A. Apap, M., *et al.* 1293

CALCIUM PHOSPHATES

Enhanced fluoride uptake from mouthrinses. Hong, Y.C., *et al.* 82
Histologic evaluation of tissue response to hydroxyapatite implanted on human mandibles. Beirne, O.R., *et al.* 1152
Hydrolysis of dicalcium phosphate dihydrate in the presence or absence of calcium fluoride. Tung, M.S., *et al.* 2

CARIOSTATIC AGENTS

Development of sustained-release antimicrobial dental varnishes effective against *streptococcus mutans in vitro*. Balanyk, T.E., *et al.* 1356
Dissolution studies of human enamel treated with aluminum solutions. Putt, M.S., *et al.* 437
Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24
In vivo investigation of the fluoride uptake in partially demineralized human enamel from several different dentifrices, An. Reintsema, H., *et al.* 19
Some physico-chemical properties of deciduous enamel of children with and without pre-natal fluoride supplementation (PNF). LeGeros, R.Z., *et al.* 465

CELL MOVEMENT

Attachment, migration, and orientation of human gingival fibroblasts to collagen-coated, surface-demineralized, and untreated root slices. Lowenberg, B.F., *et al.* 1106

CELL WALL

Dental pulp response to bacterial cell wall material. Warfvinge, J., *et al.* 1046

CEPHALOMETRY

Adjusting craniofacial correlations for technical error. Buschang, P.H., *et al.* 919

CHEWING GUM

Comparisons of various salivary parameters in smokers before and after the use of a nicotine-containing chewing gum. Olson, B.L., *et al.* 826

CHICKENS

Effects of a single intravenous dose of sodium fluoride on plasma electrolytes and metabolites in rats, rabbits, and cockerels. Monsour, P.A., *et al.* 1281

CHLORHEXIDINE

Effects of extracellular plaque components on the chlorhexidine sensitivity of strains of *streptococcus mutans* and human dental plaque. Wolinsky, L.E., *et al.* 1051
Oral colonization and susceptibility testing of *pseudomonas aeruginosa* oral isolates from cystic fibrosis patients. Lindemann, R.A., *et al.* 54
Plaque inhibition by sustained release of chlorhexidine from removable appliances. Friedman, M., *et al.* 1319

COLLAGEN

Attachment, migration, and orientation of human gingival fibroblasts to collagen-coated, surface-demineralized, and untreated root slices. Lowenberg, B.F., *et al.* 1106
Changes in collagen types during the healing of rabbit tooth extraction wounds. Kurita, K., *et al.* 28
Effect of inflammation on the distribution of collagen types I, III, IV, and V, and type I trimer and fibronectin in human gingivae. Narayanan, A.S., *et al.* 1111
Retinoic acid stimulates degradation of interstitial collagen fibrils by rat mucosal keratinocytes *in vitro*. Wells, B.R., *et al.* 1186+
Sulfur uptake by type I collagen from methyl mercaptan/dimethyl disulfide air mixtures. Johnson, P.W., *et al.* 1361

COMPOSITE RESINS

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405
Alternative interpretations of water sorption values of composite resins. Fan, P.L., *et al.* 78
Bond strength of composite laminate veneers, The. Walls, A.W.G., *et al.* 1261
Chemical softening and wear of dental composites. McKinney, J.E., *et al.* 1326
Composite resin compatibility and bond longevity of a dentin bonding agent. Chan, D.C.N., *et al.* 1402
Compressive creep of dental composites. Bapna, M.S., *et al.* 1179
Dentin-polymer bond in resin fillings tested *in vitro* by thermo- and load-cycling. Munksgaard, E.C., *et al.* 144
Dentin-polymer bond promoted by gluma and various resins. Munksgaard, E.C., *et al.* 1409
Effect of filler content and size on properties of composites. Li, Y., *et al.* 1396
Effect of five-year storage prior to bonding on enamel/composite bond strength, The. Williams, V.D., *et al.* 151
New method for sealing composite resin contraction gaps in lined cavities, A. Torstenson, B., *et al.* 450
Properties of microfilled composite resins as influenced by filler content. St. Germain, H., *et al.* 155
Time-dependent deformation of composite resins—compositional considerations. Ferracane, J.L., *et al.* 1332
Time-dependent deformation of composite restorative materials in compression. Cock, D.J., *et al.* 147

CYSTIC FIBROSIS

Oligosaccharide structures of the low-molecular-weight salivary mucin from a normal individual and one with cystic fibrosis. Reddy, M.S., *et al.* 33
Oral colonization and susceptibility testing of *pseudomonas aeruginosa* oral isolates from cystic fibrosis patients. Lindemann, R.A., *et al.* 54

DENTAL ALLOYS

Analysis of alloy-porcelain compatibility using a multi-component material strip equation. DeHoff, P.H., *et al.* 1337
Corrosion evaluation of gold-based dental alloys. Corso, P.P., Jr., *et al.* 854
Creep-fatigue as a possible cause of dental amalgam margin failure. Williams, P.T., *et al.* 470
Interactive effect of stress and temperature on creep of PFM alloys. Anusavice, K.J., *et al.* 1094
In vitro crevice corrosion behavior of implant materials. Sutow, E.J., *et al.* 842
Microstructure of duplex (β + γ) silver-tin alloys. Abbott, J.R., *et al.* 860
Spectrometric analysis of the influence of metal substrates on the color of metal-ceramic restorations. Brewer, J.D., *et al.* 74
Structure, corrosion, and tarnishing of Ag-Pd-Cu alloys. Niemi, L., *et al.* 1163
Structural changes in the oxidation zones of gold alloys for porcelain bonding containing small amounts of Fe and Sn. Ohno, H., *et al.* 67
Tarnish evaluation of gold-based dental alloys. Corso, P.P., Jr., *et al.* 848
Tarnishing *in vivo* and *in vitro* of a low-gold alloy related to its structure. Herø, H., *et al.* 139
Technique for characterizing casting behavior of dental alloys, A. Hinman, R.W., *et al.* 134
Thermal stress failure of porcelain bonded to a palladium-silver alloy. Walton, T.R., *et al.* 476

DENTAL AMALGAM

Creep-fatigue as a possible cause of dental amalgam margin failure. Williams, P.T. *et al.* 470
Intra-oral air mercury released from dental amalgam. Vimy, M.J., *et al.* 1069

Response of dental amalgam to dynamic loading, The. Sutow, E.J., *et al.* 62
Serial measurements of intra-oral air mercury: estimation of daily dose from dental amalgam. Vimy, M.J., *et al.* 1072

DENTAL CALCULUS

Evaluation of 2-phosphono-butane 1,2,4 tricarboxylate as a crystal growth inhibitor *in vitro* and *in vivo*. Gaffar, A., *et al.* 6
Influence of soluble pyrophosphate on calculus formation in adults. Mallatt, M.E., *et al.* 1159

DENTAL CARIES

Analysis of covariance in caries clinical trials using groupings of teeth. Worthington, H.V., *et al.* 102
Antibiotic susceptibility of anaerobic bacteria from the human oral cavity. Baker, P.J., *et al.* 1233
Caries prevalence in Turner's Syndrome (45,X females). Takala, I., *et al.* 126
Colonization of the human oral cavity by a strain of *streptococcus mutans*. Hillman, J.D., *et al.* 1272
Dental caries and tetracycline-stained dentition in an American Indian population. Rebich, T., *et al.* 462
Depth of penetration of *in vitro* root surface lesions. Phankosol, P., *et al.* 897
Development of sustained-release antimicrobial dental varnishes effective against *streptococcus mutans in vitro*. Balanyk, T.E., *et al.* 1356
Effect of malnutrition on caries development and saliva composition in the rat, The. Johansson, I., *et al.* 37
Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405
From mice to men. Goldhaber, P. 947*
Histopathology of the initial lesion of the root surface: an *in vitro* study. Phankosol, P., *et al.* 804
Hydrolysis of dicalcium phosphate dihydrate in the presence or absence of calcium fluoride. Tung, M.S., *et al.* 2
Importance of high pKA acids in cariogenic potential of plaque. Margolis, H.C., *et al.* 786
Inhibition of root surface caries in rice rats: use of a sodium fluoride dentifrice. Rosen, S., *et al.* 904
In situ fluoride uptake from fluoride dentifrices by carious enamel. Stookey, G.K., *et al.* 900
Internal morphology of surface zones from acid-etched caries-like lesions: a scanning electron microscopic study. Hicks, M.J., *et al.* 1296
Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377
Longitudinal study of root caries: baseline and incidence data, A. Banting, D.W., *et al.* 1141
Micro-analytical determination of pH, calcium, and phosphate in plaque fluid. Rankine, C.A.N., *et al.* 1275
More *streptococcus mutans*, the more caries on approximal surfaces, The. Kristoffersson, K., *et al.* 58
Polyamines of dental plaque in caries-resistant *vs.* caries-susceptible adults. Vratsanos, S.M., *et al.* 422
Predominant obligate anaerobes in human carious dentin. Hoshino, E. 1195
Relation between caries prevalence and strontium concentrations in drinking water, plaque, and surface enamel. The. Curzon, M.E.J. 1386
Streptococcus mutans and *lactobacillus* detection in the assessment of dental root surface caries risk. Ellen, R.P., *et al.* 1245
Sugar clearance from saliva and intra-oral spaces. Goulet, D., *et al.* 411

DENTAL CASTING TECHNIC

Structure, corrosion, and tarnishing of Ag-Pd-Cu alloys. Niemi, L., *et al.* 1163
Tarnishing *in vivo* and *in vitro* of a low-gold alloy related to its structure. Herø, H., *et al.* 139
Technique for characterizing casting behavior of dental alloys, A. Hinman, R.W., *et al.* 134

DENTAL CAVITY LINING

New method for sealing composite resin contraction gaps in lined cavities, A. Torstenson, B., *et al.* 450

DENTAL CEMENTS

Erosion test for dental cements, An. Walls, A.W.G., *et al.* 1100

DENTAL ENAMEL (*see also* Mottled Enamel)

Dental caries and tetracycline-stained dentition in an American Indian population. Rebich, T., *et al.* 462
Depth of penetration of *in vitro* root surface lesions. Phankosol, P., *et al.* 897
Dissolution studies of human enamel treated with aluminum solutions. Putt, M.S., *et al.* 437
Effect of five-year storage prior to bonding on enamel/composite bond strength, The. Williams, V.D., *et al.* 151
Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24
Enamel fluoride in nursing rats with mothers drinking water with high fluoride concentrations. Drinkard, C.R., *et al.* 877
Enamel microhardness change and plaque pH measurements in an intra-oral model in humans. Essig, M.E., *et al.* 1065
Enhanced fluoride uptake from mouthrinses. Hong, Y.C., *et al.* 82
Evaluation of 2-phosphono-butane 1,2,4 tricarboxylate as a crystal growth inhibitor *in vitro* and *in vivo*. Gaffar, A., *et al.* 6
Fluoride uptake in plaque-covered enamel after treatment with the fluoride lacquer Duraphat®. Hellwig, E., *et al.* 1080
In situ fluoride uptake from fluoride dentifrices by carious enamel. Stookey, G.K., *et al.* 900
Internal morphology of surface zones from acid-etched caries-like lesions: a scanning electron microscopic study. Hicks, M.J., *et al.* 1296
In vivo investigation of the fluoride uptake in partially demineralized human enamel from several different dentifrices, An. Reintsema, H., *et al.* 19
Influence of repeated APF applications on long-term remineralization of initial lesions in bovine enamel. Bodde, H.E., *et al.* 12
New method for matching tooth colors with color standards, A. Van Der Burgt, T.P., *et al.* 837
New microsample grinding technique for quantitative determination of calcium and phosphorus in dental enamel, A. Apap, M., *et al.* 1293
Relation between caries prevalence and strontium concentrations in drinking water, plaque, and surface enamel, The. Curzon, M.E.J. 1386
Reliability of the iodide permeability test applied to the natural dentition, The. Tavares, M. *et al.* 1257
Remineralization of softened bovine enamel following treatment of overlying plaque with a mineral-enriching solution. Pearce, E.I.F., *et al.* 416
Reproducibility of computer-aided image-analysis-derived estimates of the depth and area of radiolucencies in approximal enamel. Pitts, N.B., *et al.* 1221
Some physico-chemical properties of deciduous enamel of children with and without pre-natal fluoride supplementation (PNF). LeGeros, R.Z., *et al.* 465
Systematic assessment of color removal following vital bleaching of intrinsically stained teeth. Seale, N.S., *et al.* 457
Uptake and retention of aluminum by dental enamel. Kleber, C.J., *et al.* 1374

DENTAL HEALTH SURVEYS

Smoking and periodontal disease in the Finnish population aged 30 years and over. Markkanen, H., *et al.* 932

DENTAL IMPLANTATION

Effect of class II elastic forces on craniofacial growth in rats, The. Bakker, V.M. 44
In vitro crevice corrosion behavior of implant materials. Sutow, E.J., *et al.* 842
Ultrastructural study of epithelial cell attachment to implant materials. Jansen, J.A., *et al.* 891

DENTAL PLAQUE

Antibiotic susceptibility of anaerobic bacteria from the human oral cavity. Baker, P.J., *et al.* 1233
Changes in plaque pH *in vitro* by sweeteners. Bibby, B.G., *et al.* 1130
Colonization of the human oral cavity by a strain of *streptococcus mutans*. Hillman, J.D., *et al.* 1272
Dental plaque toxins are not lymphotoxins. Levine, M. 1117
Effect of environmental conditions on the fluoride sensitivity of acid production by *s. sanguis* NCTC 7865. Marsh, P.D., *et al.* 85
Effect of oral nutrient limitation of gnotobiotic rats on acidogenesis properties of dental plaque formed by oral streptococci. Van Houte, J., *et al.* 815
Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405
Effects of extracellular plaque components on the chlorhexidine sensitivity of strains of *streptococcus mutans* and human dental plaque. Wolinsky, L.E., *et al.* 1051

Fluoride uptake in plaque-covered enamel after treatment with the fluoride lacquer Duraphat®. Hellwig, E., *et al.* 1080
Immediate and delayed effects of an enzyme-dependent mineralizing mouthrinse on dental plaque. Schamschula, R.G., *et al.* 454
Importance of high pKA acids in cariogenic potential of plaque. Margolis, H.C., *et al.* 786
Micro-analytical determination of pH, calcium, and phosphate in plaque fluid. Rankine, C.A.N., *et al.* 1275
pH change in artificial dental plaque formed by glucosyltransferase and some oral bacteria during batch and continuous culture. Takehara, T., *et al.* 447
Plaque inhibition by sustained release of chlorhexidine from removable appliances. Friedman, M., *et al.* 1319
Polyamines of dental plaque in caries-resistant *vs.* caries-susceptible adults. Vratsanos, S.M., *et al.* 422
Rapid identification of periodontal pathogens in subgingival plaque: comparison of indirect immunofluorescence microscopy with bacterial culture for detection of actinobacillus actinomycetemcomitans. Bonta, Y., *et al.* 793
Relation between caries prevalence and strontium concentrations in drinking water, plaque, and surface enamel, The. Curzon, M.E.J. 1386
Remineralization of softened bovine enamel following treatment of overlying plaque with a mineral-enriching solution. Pearce, E.I.F., *et al.* 416

DENTAL PORCELAIN

Analysis of alloy-porcelain compatibility using a multi-component material strip equation. DeHoff, P.H., *et al.* 1337
'C'-test for the evaluation of dental porcelain, The. Edwards, M.R., *et al.* 1176
Double-layer color effects in porcelain systems. O'Brien, W.J., *et al.* 940
Spectrometric analysis of the influence of metal substrates on the color of metal-ceramic restorations. Brewer, J.D., *et al.* 74
Thermal stress failure of porcelain bonded to a palladium-silver alloy. Walton, T.R., *et al.* 476
Ultrathinning dental porcelain for transmitted light microscopy. Mackert, J.R., Jr., *et al.* 1170

DENTAL PULP

Accuracy of localization of pulpal pain on cold stimulation. Abdel Wahab, M.H., *et al.* 1155
Dental pulp response to bacterial cell wall material. Warfvinge, J., *et al.* 1046
Effect of alternatives to formocresol on antigenicity of proteins, The. Ranly, D.M., *et al.* 1225
New technique for screening chemical toxicity to the pulp from dental restorative materials and procedures, A. Hume, W.R. 1322
Workshop proceedings, international conference on biology of dentin and pulp. 481*

DENTAL STRESS ANALYSIS

Analysis of alloy-porcelain compatibility using a multi-component material strip equation. DeHoff, P.H., *et al.* 1337
Compressive creep of dental composites. Bapna, M.S., *et al.* 1179
'C'-test for the evaluation of dental porcelain, The. Edwards, M.R., *et al.* 1176
Dentin-polymer bond in resin fillings tested *in vitro* by thermo- and load-cycling. Munksgaard, E.C., *et al.* 144
Effect of filler content and size on properties of composites. Li, Y., *et al.* 1396
Effect of five-year storage prior to bonding on enamel/composite bond strength, The. Williams, V.D., *et al.* 151
Interactive effect of stress and temperature on creep of PFM alloys. Anusavice, K.J., *et al.* 1094
Response of dental amalgam to dynamic loading, The. Sutow, E.J., *et al.* 62
Thermal stress failure of porcelain bonded to a palladium-silver alloy. Walton, T.R., *et al.* 476
Time-dependent deformation of composite restorative materials in compression. Cock, D.J., *et al.* 147

DENTIFRICES

Inhibition of root surface caries in rice rats: use of a sodium fluoride dentifrice. Rosen, S., *et al.* 904
In situ fluoride uptake from fluoride dentifrices by carious enamel. Stookey, G.K., *et al.* 900

DENTIN

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+
Changes in dentin appositional rates during pregnancy and lactation in rats. Miller, S.C., *et al.* 1062
Composite resin compatibility and bond longevity of a dentin bonding agent. Chan, D.C.N., *et al.* 1402
Dentin-polymer bond promoted by gluma and various resins. Munksgaard, E.C., *et al.* 1409
Immunocytochemical study of the human odontoblast process using antibodies against tubulin, actin, and vimentin, An. Sigal, M.J., *et al.* 1348
Predominant obligate anaerobes in human carious dentin. Hoshino, E. 1195
Workshop proceedings, biology of dentin and pulp. 481*

DENTISTRY

Accomplishments, opportunities, and challenges in oral health research. Genco, R.J. 952*
Oral mucosal lesions among elderly in Israel. Fleishman, R., *et al.* 831

DENTITION

Reliability of the iodide permeability test applied to the natural dentition, The. Tavares, M. *et al.* 1257

DENTURE LINERS

Prevalence and significance of yeasts in persons wearing complete dentures with soft-lining materials, The. Wright, P.S., *et al.* 122

DENTURES

Oral mucosal lesions among elderly in Israel. Fleishman, R., *et al.* 831
Prevalence and significance of yeasts in persons wearing complete dentures with soft-lining materials, The. Wright, P.S., *et al.* 122
Tarnishing *in vivo* and *in vitro* of a low-gold alloy related to its structure. Herø, H., *et al.* 139

DIET

Dietary fluoride intake of 15-19-year-old male adults residing in the United States. Singer, L., *et al.* 1302
Effect of malnutrition on caries development and saliva composition in the rat, The. Johansson, I., *et al.* 37
Factors relating to dental stain formation in the rat. McDonald, J.L., *et al.* 810

DIETARY CARBOHYDRATES

Effects of dietary carbohydrates on the numbers of *streptococcus mutans* and *actinomyces viscosus* in dental plaque of mono-infected gnotobiotic rats. de Jong, M.H., *et al.* 1134

DMBA

Alpha tocopherol alters the distribution of langerhans cells in DMBA-treated hamster cheek pouch epithelium. Schwartz, J., *et al.* 117

DMF INDEX

Analysis of covariance in caries clinical trials using groupings of teeth. Worthington, H.V., *et al.* 102
Caries prevalence in Turner's Syndrome (45,X females). Takala, I., *et al.* 126

DRINKING WATER

Changes in the fluoride-induced modulation of maturation stage ameloblasts of rats. DenBesten, P.K., *et al.* 1365
Relation between caries prevalence and strontium concentrations in drinking water, plaque, and surface enamel, The. Curzon, M.E.J. 1386

ELECTRON PROBE MICROANALYSIS

Structural changes in the oxidation zones of gold alloys for porcelain bonding containing small amounts of Fe and Sn. Ohno, H., *et al.* 67

ENAMEL ORGAN

Failure of PTH, calcitonin, or vitamin D metabolites to influence calcium transport in the maturation stage enamel organ. Bawden, J.W., *et al.* 1138

EPITHELIAL CELLS

Isolation and growth of human periodontal ligament cells *in vitro*. Ragnarsson, B., *et al.* 1026

EPITHELIUM

Ultrastructural study of epithelial cell attachment to implant materials. Jansen, J.A., *et al.* 891

ESCHERICHIA COLI

Comparison of the antibacterial and cytotoxic

effects of parachlorophenol, A. Messer, H.H., *et al.* 818

FIBROBLASTS

Attachment, migration, and orientation of human gingival fibroblasts to collagen-coated, surface-demineralized, and untreated root slices. Lowenberg, B.F., *et al.* 1106

Isolation and growth of human periodontal ligament cells *in vitro*. Ragnarsson, B., *et al.* 1026

FIBRONECTINS

Effect of inflammation on the distribution of collagen types I, III, IV, and V, and type I trimer and fibronectin in human gingivae. Narayanan, A.S., *et al.* 1111

FINLAND

Changes in oral health from 1973 to 1982 of 13-15-year-old schoolchildren residing in three different fluoride areas in Finland. Parviainen, K., *et al.* 1253

FLUORIDES

Changes in oral health from 1973 to 1982 of 13-15-year-old schoolchildren residing in three different fluoride areas in Finland. Parviainen, K., *et al.* 1253

Changes in the fluoride-induced modulation of maturation stage ameloblasts of rats. DenBesten, P.K., *et al.* 1365

Dietary fluoride intake of 15-19-year-old male adults residing in the United States. Singer, L., *et al.* 1302

Effect of environmental conditions on the fluoride sensitivity of acid production by *s. sanguis* NCTC 7865. Marsh, P.D., *et al.* 85

Effect of NaF and pH on the growth and glycolytic rate of recently isolated strains of oral *lactobacillus* species. Milnes, A.R., *et al.* 401

Effect of NaF on rat parotid gland amylase activity and cAMP concentration *in vitro* and *in vivo*. Shahed, A.R., *et al.* 1126

Effects of a single intravenous dose of sodium fluoride on plasma electrolytes and metabolites in rats, rabbits, and cockerels. Monsour, P.A., *et al.* 1281

Enamel fluoride in nursing rats with mothers drinking water with high fluoride concentrations. Drinkard, C.R., *et al.* 877

Enhanced fluoride uptake from mouthrinses. Hong, Y.C., *et al.* 82

Fluoride uptake in plaque-covered enamel after treatment with the fluoride lacquer Duraphat®. Hellwig, E., *et al.* 1080

Inhibition of root surface caries in rice rats: use of a sodium fluoride dentifrice. Rosen, S., *et al.* 904

In situ fluoride uptake from fluoride dentifrices by carious enamel. Stookey, G.K., *et al.* 900

In vivo investigation of the fluoride uptake in partially demineralized human enamel from several different dentifrices, An. Reintsema, H., *et al.* 19

Influence of repeated APF applications on long-term remineralization of initial lesions in bovine enamel. Boddé, H.E., *et al.* 12

Oral colonization and susceptibility testing of *pseudomonas aeruginosa* oral isolates from cystic fibrosis patients. Lindemann, R.A., *et al.* 54

Pharmacokinetics of chronic fluoride ingestion in growing pigs. Richards, A., *et al.* 425

pH-dependent fluoride inhibition of peroxidase activity. Thibodeau, E.A., *et al.* 1211

Plasma fluoride levels in man following intake of SnF_2 in solution or toothpaste. Ellingsen, J.E., *et al.* 1250

Prevalence of dental fluorosis after fluoride-gel treatments in a low-fluoride area. Joost-Larsen, M., *et al.* 1076

Some physico-chemical properties of deciduous enamel of children with and without pre-natal fluoride supplementation (PNF). LeGeros, R.Z., *et al.* 465

Systematic assessment of color removal following vital bleaching of intrinsically stained teeth. Seale, N.S., *et al.* 457

Urinary excretion of fluoride following ingestion of MFP toothpastes by infants aged two to six years. Drummond, B.K., *et al.* 1145

FORMOCRESOLS

Effect of alternatives to formocresol on antigenicity of proteins, The. Ranly, D.M., *et al.* 1225

FRANCE

Survey of the reasons for dental extractions in France, A. Cahen, P.M., *et al.* 1087

FRUCTOSE (*see* Sweetening Agents)

FUSOBACTERIUM

Effects of a *fusobacterium nucleatum* extract on immunoregulation in mice. Yoshie, H., *et al.* 431

GENETICS

Genetic variance in dental dimensions of Punjabi twins. Sharma, K., *et al.* 1389

GINGIVA

Effect of inflammation on the distribution of collagen types I, III, IV, and V, and type I trimer and fibronectin in human gingivae. Narayanan, A.S., *et al.* 1111

GINGIVAL EXUDATE

Acid-base properties of human gingival crevicular fluid. Bickel, M., *et al.* 1218

GLUCANS

Effects of extracellular plaque components on the chlorhexidine sensitivity of strains of *streptococcus mutans* and human dental plaque. Wolinsky, L.E., *et al.* 1051

GLUCOSE (*see* Sweetening Agents)

GLUCOSYLTRANSFERASES

pH change in artificial dental plaque formed by glucosyltransferase and some oral bacteria during batch and continuous culture. Takehara, T., *et al.* 447

GLYCOLYSIS

Effect of NaF and pH on the growth and glycolytic rate of recently isolated strains of oral *lactobacillus* species. Milnes, A.R., *et al.* 401

Reduction of acidurance of streptococcal growth and glycolysis by fluoride and gramicidin. Bender, G.R., *et al.* 90

GRAMICIDINS

Reduction of acidurance of streptococcal growth and glycolysis by fluoride and gramicidin. Bender, G.R., *et al.* 90

GUINEA PIGS

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

HAMSTERS

Alpha tocopherol alters the distribution of langerhans cells in DMBA-treated hamster cheek pouch epithelium. Schwartz, J., *et al.* 117

HEPTANES

Chemical softening and wear of dental composites. McKinney, J.E., *et al.* 1326

HOST-PARASITE RELATIONS

Contribution of stereochemical interactions in the adhesion of *streptococcus sanguis* C5 to experimental pellicles. Gibbons, R.J., *et al.* 96

Prevalence of *legionella*-specific IgG and IgM antibody in a dental clinic population. Fotos, P.G., *et al.* 1382

Relationship between serum IgG levels to subgingival gram-negative bacteria and degree of periodontal destruction, The. Naito, Y., *et al.* 1306

HYALURONIDASE

Identification and characterization of rabbit buccal mucosal hyaluronidase. Bertolami, C.N., *et al.* 913

HYDROGEN SULFIDE

Sulfur uptake by type I collagen from methyl mercaptan/dimethyl disulfide air mixtures. Johnson, P.W., *et al.* 1361

HYDROXYAPATITES

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405

Contribution of stereochemical interactions in the adhesion of *streptococcus sanguis* C5 to experimental pellicles. Gibbons, R.J., *et al.* 96

Evaluation of 2-phosphono-butane 1,2,4 tricarboxylate as a crystal growth inhibitor *in vitro* and *in vivo*. Gaffar, A., *et al.* 6

In vitro attachment, salivary agglutination, and surface fibril density of fresh *actinomyces* isolates from two distinct oral surfaces. Ellen, R.P., *et al.* 799

Photo-oxidation of tetracycline adsorbed on hydroxyapatite in relation to the light-induced staining of teeth. Davies, A.K., *et al.* 936

HYPERTROPHY

Mitosis and hypertrophy of intercalated duct cells and endothelial cells in the isoproterenol-treated rat parotid gland. Hand, A.R., *et al.* 1031

IADR/AADR

Divisional abstracts. 638
IADR/AADR council proceedings. 955–1007*

IMMUNOGLOBULINS

Prevalence of *legionella*-specific IgG and IgM antibody in a dental clinic population. Fotos, P.G., *et al.* 1382
Relationship between serum IgG levels to subgingival gram-negative bacteria and degree of periodontal destruction, The. Naito, Y., *et al.* 1306

INCISOR

Correlation of apical and lateral membrane modulations of maturation ameloblasts. Skobe, Z., *et al.* 1055

INDIANS, NORTH AMERICAN

Dental caries and tetracycline-stained dentition in an American Indian population. Rebich, T., *et al.* 462

INTRA-ORAL CARIOGENICITY TEST

Enamel microhardness change and plaque pH measurements in an intra-oral model in humans. Essig, M.E., *et al.* 1065

IODIDES

Reliability of the iodide permeability test applied to the natural dentition, The. Tavares, M. *et al.* 1257

ISOPROTERENOL

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881
Effects of the selective β_2-adrenergic agonists, procaterole and terbutaline, on protein secretion by rat submandibular glands. Abe, K., *et al.* 886
Mitosis and hypertrophy of intercalated duct cells and endothelial cells in the isoproterenol-treated rat parotid gland. Hand, A.R., *et al.* 1031

LACTATION

Changes in dentin appositional rates during pregnancy and lactation in rats. Miller, S.C., *et al.* 1062

LACTIC ACID

Effect of anti-oxidants on growth and lactic acid production by *streptococcus mutans*. Kupp, L.I., *et al.* 1016+

LACTATE DEHYDROGENASE

Lactate dehydrogenase-deficient mutants of serotype *g streptococcus mutans*. Salem, H.H.H., *et al.* 1191
Serotype *c streptococcus mutans* mutatable to lactate dehydrogenase deficiency. Abhyankar, S., *et al.* 1267

LACTOBACILLUS

Effect of NaF and pH on the growth and glycolytic rate of recently isolated strains of oral *lactobacillus* species. Milnes, A.R., *et al.* 401
Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377
Streptococcus mutans and *lactobacillus* detection in the assessment of dental root surface caries risk. Ellen, R.P., *et al.* 1245

LANGERHANS CELLS

Alpha tocopherol alters the distribution of langerhans cells in DMBA-treated hamster cheek pouch epithelium. Schwartz, J., *et al.* 117

LEGIONELLA

Prevalence of *legionella*-specific IgG and IgM antibody in a dental clinic population. Fotos, P.G., *et al.* 1382

LICHEN PLANUS

Age-related salivary flow rate changes in controls and patients with oral lichen planus. Gandara, B.K., *et al.* 1149

LIDOCAINE

Toxicological assessment of lidocaine in the pregnant rat. Ramazotto, L.J., *et al.* 1214

LIPOPOLYSACCHARIDES

Dental pulp response to bacterial cell wall material. Warfvinge, J., *et al.* 1046

LYMPHOCYTES

Stimulation of human peripheral blood lymphocytes by oral bacteria: macrophage and T-cell dependence, The. Baker, J.J., *et al.* 906

LYMPHOTOXINS

Dental plaque toxins are not lymphotoxins. Levine, M. 1117

LYSOZYMES

Lysozyme-mediated de-chaining of *streptococcus mutans* and its antibacterial significance in an acidic environment. Iacono, V.J. *et al.* 48

MALOCCLUSION

Malocclusion, masticatory muscle, and temporomandibular joint tenderness. Bush, F.M., *et al.* 129

MANDIBLE

Effect of class II elastic forces on craniofacial growth in rats, The. Bakker, V.M. 44
Economic specification of cost estimates in dental programs. Doherty, N.J.G., *et al.* 922
Histologic evaluation of tissue response to hydroxyapatite implanted on human mandibles. Beirne, O.R., *et al.* 1152

MANNITOL (*see* Sweetening Agents)

MASTICATORY MUSCLES

Malocclusion, masticatory muscle, and temporomandibular joint tenderness. Bush, F.M., *et al.* 129

MAXILLOFACIAL DEVELOPMENT

Adjusting craniofacial correlations for technical error. Buschang, P.H., *et al.* 919
Effect of class II elastic forces on craniofacial growth in rats, The. Bakker, V.M. 44

MERCURY

Intra-oral air mercury released from dental amalgam. Vimy, M.J., *et al.* 1069
Serial measurements of intra-oral air mercury: estimation of daily dose from dental amalgam. Vimy, M.J., *et al.* 1072

METHACRYLATES

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405

METHOXAMINE

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881

MICE

Antigenic variation of indigenous streptococci. Beem, J.E., *et al.* 1039
Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199
Effects of a *fusobacterium nucleatum* extract on immunoregulation in mice. Yoshie, H., *et al.* 431
Mouse parotid gland preparation: an *in vivo* pharmacological tool, The. Bobyock, E., *et al.* 1121

MICRODENSITOMETRY

Analysis of dental hard tissue by computerized microdensitometry. Mallon, D.E., *et al.* 112

MICRORADIOGRAPHY

Application of an x-ray image magnifier to the microradiography of dental specimens. Takagi, S., *et al.* 866

MICROSCOPY

ELECTRON, SCANNING

Internal morphology of surface zones from acid-etched caries-like lesions: a scanning electron microscopic study. Hicks, M.J., *et al.* 1296
Response of dental amalgam to dynamic loading, The. Sutow, E.J., *et al.* 62
Influence of repeated APF applications on long-term remineralization of initial lesions in bovine enamel. Boddé, H.E., *et al.* 12
Structural changes in the oxidation zones of gold alloys for porcelain bonding containing small amounts of Fe and Sn. Ohno, H., *et al.* 67

FLUORESCENCE

Rapid identification of periodontal pathogens in subgingival plaque: comparison of indirect immunofluorescence microscopy with bacterial culture for detection of *actinobacillus actinomycetemcomitans*. Bonta, Y., *et al.* 793

TRANSMISSION ELECTRON

Ultrastructural study of epithelial cell attachment to implant materials. Jansen, J.A., *et al.* 891

MITOSIS

Mitosis and hypertrophy of intercalated duct cells and endothelial cells in the isoproterenol-treated rat parotid gland. Hand, A.R., *et al.* 1031

MODELS, DENTAL

Analysis of alloy-porcelain compatibility using a multi-component material strip equation. DeHoff, P.H., *et al.* 1337

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

Bond strength of composite laminate veneers, The. Walls, A.W.G., *et al.* 1261

Development of sustained-released antimicrobial dental varnishes effective against *streptococcus mutans in vitro*. Balanyk, T.E., *et al.* 1356

Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405

Enamel microhardness change and plaque pH measurements in an intra-oral model in humans. Essig, M.E., *et al.* 1065

Factors relating to dental stain formation in the rat. McDonald, J.L., *et al.* 810

MOLAR (*see also* Tooth)

Antigenic variation of indigenous streptococci. Beem, J.E., *et al.* 1039

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

Immunocytochemical study of the human odontoblast process using antibodies against tubulin, actin, and vimentin, An. Sigal, M.J., *et al.* 1348

Intercuspal distances of maxillary pre-molar teeth in Australian aboriginals. Townsend, G.C., *et al.* 443

New technique for screening chemical toxicity to the pulp from dental restorative materials and procedures, A. Hume, W.R. 1322

Predominant obligate anaerobes in human carious dentin. Hoshino, E. 1195

MOTTLED ENAMEL

Prevalence of dental fluorosis after fluoride-gel treatments in a low-fluoride area. Joost-Larsen, M., *et al.* 1076

MOUTHWASHES

Immediate and delayed effects of an enzyme-dependent mineralizing mouthrinse on dental plaque. Schamschula, R.G., *et al.* 454

MOUTH MUCOSA

Alpha tocopherol alters the distribution of langerhans cells in DMBA-treated hamster cheek pouch epithelium. Schwartz, J., *et al.* 117

Identification and characterization of rabbit buccal mucosal hyaluronidase. Bertolami, C.N., *et al.* 913

Oral mucosal lesions among elderly in Israel. Fleishman, R., *et al.* 831

Prevalence and significance of yeasts in persons wearing complete dentures with soft-lining materials, The. Wright, P.S., *et al.* 122

Retinoic acid stimulates degradation of interstitial collagen fibrils by rat mucosal keratinocytes *in vitro*. Wells, B.R., *et al.* 1186+

MUCINS

Oligosaccharide structures of the low-molecular-weight salivary mucin from a normal individual and one with cystic fibrosis. Reddy, M.S., *et al.* 33

NICOTINE

Comparisons of various salivary parameters in smokers before and after the use of a nicotine-containing chewing gum. Olson, B.L., *et al.* 826

OCTANOIC ACIDS

Adsorption of zirconyl salts and their acids on hydroxyapatite: use of the salts as coupling agents to dental polymer composites. Misra, D.N. 1405

ODONTOBLASTS

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

Immunocytochemical study of the human odontoblast process using antibodies against tubulin, actin, and vimentin, An. Sigal, M.J., *et al.* 1348

Workshop proceedings, international conference on the biology of dentin and pulp. 481*

ODONTOGENESIS

Intercuspal distances of maxillary pre-molar teeth in Australian aboriginals. Townsend, G.C., *et al.* 443

ODONTOGENESIS IMPERFECTA

Dental development in precocious puberty. Roberts, M.W., *et al.* 1084

ODONTOMETRY

Genetic variance in dental dimensions of Punjabi twins. Sharma, K., *et al.* 1389

Intercuspal distances of maxillary pre-molar teeth in Australian aboriginals. Townsend, G.C., *et al.* 443

OLIGOSACCHARIDES

Oligosaccharide structures of the low-molecular-weight salivary mucin from a normal individual and one with cystic fibrosis. Reddy, M.S., *et al.* 33

ORAL HEALTH

Accomplishments, opportunities, and challenges in oral health research. Genco, R.J. 952*

Changes in oral health from 1973 to 1982 of 13-15-year-old schoolchildren residing in three different fluoride areas in Finland. Parviainen, K., *et al.* 1253

Oral mucosal lesions among elderly in Israel. Fleishman, R., *et al.* 831

ORAL SUGAR CLEARANCE

Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405

Sugar clearance from saliva and intra-oral spaces. Goulet, D., *et al.* 411

ORTHODONTICS

Effect of class II elastic forces on craniofacial growth in rats, The. Bakker, V.M. 44

Temporomandibular joint sounds related to orthodontic therapy. Sadowsky, C., *et al.* 1392

OSTEOCYTES

Differences in permeability of microperoxidase and horseradish peroxidase into the alveolar bone of developing rats. Tanaka, T., *et al.* 870

PAIN

Accuracy of localization of pulpal pain on cold stimulation. Abdel Wahab, M.H., *et al.* 1155

Study of factors associated with changes in dental anxiety, A. Kent, G., *et al.* 1316

PARATHYROID HORMONES

Failure of PTH, calcitonin, or vitamin D metabolites to influence calcium transport in the maturation stage enamel organ. Bawden, J.W., *et al.* 1138

PAROTID GLAND (*see* Salivary Glands)

PBTA

Evaluation of 2-phosphono-butane 1,2,4 tricarboxylate as a crystal growth inhibitor *in vitro* and *in vivo*. Gaffar, A., *et al.* 6

PEPTIDE HYDROLASES

Glycylprolyl dipeptidylaminopeptidase from *bacteroides gingivalis*. Abiko, Y., *et al.* 106

PERIODONTAL DISEASE

Smoking and periodontal disease in the Finnish population aged 30 years and over. Markkanen, H., *et al.* 932

Sulfur uptake by type I collagen from methyl mercaptan/dimethyl disulfide air mixtures. Johnson, P.W., *et al.* 1361

PERIODONTAL LIGAMENT

Isolation and growth of human periodontal ligament cells *in vitro*. Ragnarsson, B., *et al.* 1026

PERIODONTAL POCKET

Adsorption of antibiotic TA to dental hard tissues. Manor, A., *et al.* 1371

PERIODONTITIS

Economic specification of cost estimates in dental programs. Doherty, N.J.G., *et al.* 922

Relationship between serum IgG levels to

subgingival gram-negative bacteria and degree of periodontal destruction, The. Naito, Y., *et al.* 1306

PEROXIDASES

Differences in permeability of microperoxidase and horseradish peroxidase into the alveolar bone of developing rats. Tanaka, T., *et al.* 870

PHENOLS

Comparison of the antibacterial and cytotoxic effects of parachlorophenol, A. Messer, H.H., *et al.* 818

PHOSPHATES

Micro-analytical determination of pH, calcium, and phosphate in plaque fluid. Rankine, C.A.N., *et al.* 1275

PHOSPHORUS

New microsample grinding technique for quantitative determination of calcium and phosphorous in dental enamel, A. Apap, M., *et al.* 1293

PLASMA

Effects of a single intravenous dose of sodium fluoride on plasma electrolytes and metabolites in rats, rabbits, and cockerels. Monsour, P.A., *et al.* 1281

Plasma fluoride levels in man following intake of SnF_2 in solution or toothpaste. Ellingsen, J.E., *et al.* 1250

PREGNANCY, ANIMAL

Changes in dentin appositional rates during pregnancy and lactation in rats. Miller, S.C., *et al.* 1062

Enamel fluoride in nursing rats with mothers drinking water with high fluoride concentrations. Drinkard, C.R., *et al.* 877

Toxicological assessment of lidocaine in the pregnant rat. Ramazotto, L.J., *et al.* 1214

PROCATEROLE

Effects of the selective β_2-adrenergic agonists, procaterole and terbutaline, on protein secretion by rat submandibular glands. Abe, K., *et al.* 886

PROCEEDINGS

IADR/AADR council proceedings. 955-1007*

PROTEIN KINASES

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

PSEUDOMONAS AERUGINOSA

Oral colonization and susceptibility testing of *pseudomonas aeruginosa* oral isolates from cystic fibrosis patients. Lindemann, R.A., *et al.* 54

PUBERTY

Dental development in precocious puberty. Roberts, M.W., *et al.* 1084

PYROPHOSPHATES

Influence of soluble pyrophosphate on calculus formation in adults. Mallatt, M.E., *et al.* 1159

RABBITS

Changes in collagen types during the healing of rabbit tooth extraction wounds. Kurita, K., *et al.* 28

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

Effect of alternatives to formocresol on antigenicity of proteins, The. Ranly, D.M., *et al.* 1225

Effects of a single intravenous dose of sodium fluoride on plasma electrolytes and metabolites in rats, rabbits, and cockerels. Monsour, P.A., *et al.* 1281

Identification and characterization of rabbit buccal mucosal hyaluronidase. Bertolami, C.N., *et al.* 913

RADIOGRAPHY

Analysis of dental hard tissue by computerized microdensitometry. Mallon, D.E., *et al.* 112

RADIOGRAPHIC IMAGE ENHANCEMENT

Reproducibility of computer-aided image-analysis-derived estimates of the depth and area of radiolucencies in approximal enamel. Pitts, N.B., *et al.* 1221

RATS

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

Changes in dentin appositional rates during pregnancy and lactation in rats. Miller, S.C., *et al.* 1062

Changes in the fluoride-induced modulation of maturation stage ameloblasts of rats. DenBesten, P.K., *et al.* 1365

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881

Correlation of apical and lateral membrane modulations of maturation ameloblasts. Skobe, Z., *et al.* 1055

Differences in permeability of microperoxidase and horseradish peroxidase into the alveolar bone of developing rats. Tanaka, T., *et al.* 870

Effect of NaF on rat parotid gland amylase activity and cAMP concentration *in vitro* and *in vivo*. Shahed, A.R., *et al.* 1126

Effect of oral nutrient limitation of gnotobiotic rats on acidogenesis properties of dental plaque formed by oral streptococci. Van Houte, J., *et al.* 815

Effects of a single intravenous dose of sodium fluoride on plasma electrolytes and metabolites in rats, rabbits, and cockerels, Monsour, P.A., *et al.* 1281

Effects of dietary carbohydrates on the numbers of *streptococcus mutans* and *actinomyces viscosus* in dental plaque of mono-infected gnotobiotic rats. de Jong, M.H., *et al.* 1134

Effects of the selective β_2-adrenergic agonists, procaterole and terbutaline, on protein secretion by rat submandibular glands. Abe, K., *et al.* 886

Enamel fluoride in nursing rats with mothers drinking water with high fluoride concentrations. Drinkard, C.R., *et al.* 877

Factors relating to dental stain formation in the rat. McDonald, J.L., *et al.* 810

Effect of class II elastic forces on craniofacial growth in rats, The. Bakker, V.M. 44

Effect of malnutrition on caries development and saliva composition in the rat, The. Johansson, I., *et al.* 37

Inhibition of root surface caries in rice rats: use of a sodium fluoride dentifrice. Rosen, S., *et al.* 904

Mitosis and hypertrophy of intercalated duct cells and endothelial cells in the isoproterenol-treated rat parotid gland. Hand, A.R., *et al.* 1031

Retinoic acid stimulates degradation of interstitial collagen fibrils by rat mucosal keratinocytes *in vitro*. Wells, B.R., *et al.* 1186+

Toxicological assessment of lidocaine in the pregnant rat. Ramazotto, L.J., *et al.* 1214

RETINOIC ACID

Retinoic acid stimulates degradation of interstitial collagen fibrils by rat mucosal keratinocytes *in vitro*. Wells, B.R., *et al.* 1186+

SALIVA

Age-dependent decreases in human submandibular gland flow rates as measured under resting and post-stimulation conditions. Pedersen, W., *et al.* 822

Age-related salivary flow rate changes in controls and patients with oral lichen planus. Gandara, B.K., *et al.* 1149

Colonization of the human oral cavity by a strain of *streptococcus mutans*. Hillman, J.D., *et al.* 1272

Comparisons of various salivary parameters in smokers before and after the use of a nicotine-containing chewing gum. Olson, B.L., *et al.* 826

Contribution of stereochemical interactions in the adhesion of *streptococcus sanguis* C5 to experimental pellicles. Gibbons, R.J., *et al.* 96

Cyclic adenosine 3', 5'-monophosphate levels in human parotid saliva at different secretion rates. Mornstad, H., *et al.* 441

Effect of malnutrition on caries development and saliva composition in the rat, The. Johansson, I., *et al.* 37

Effect of swallowing frequency on oral sugar clearance and pH changes by *streptococcus mitior in vivo* after sucrose ingestion, The. Lagerlöf, F., *et al.* 1229

Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405

In vitro attachment, salivary agglutination, and surface fibril density of fresh *actinomyces* isolates from two distinct oral surfaces. Ellen, R.P., *et al.* 799

Oligosaccharide structures of the low-molecular-weight salivary mucin from a normal individual and one with cystic fibrosis. Reddy, M.S., *et al.* 33

pH-dependent fluoride inhibition of peroxidase activity. Thibodeau, E.A., *et al.* 1211
Sugar clearance from saliva and intra-oral spaces. Goulet, D., *et al.* 411
Surface free energy of oral streptococci after being coated with saliva and its relation to adhesion in the mouth, The. Weerkamp, A.H., *et al.* 1204

SALIVARY GLANDS

NOTE: Articles that report on experiments involving more than one type of gland are listed under this general heading. Articles reporting on specific glands are listed under those particular sub-headings.

Comparison of cyclic AMP-dependent protein kinases from salivary glands of four species. Dowd, F., *et al.* 1199

PAROTID

Age-related salivary flow rate changes in controls and patients with oral lichen planus. Gandara, B.K., *et al.* 1149
Contribution of extracellular and intracellular calcium to the enhanced effect of an α-adrenergic agonist on amylase release from dispersed rat parotid cells. Takemura, H., *et al.* 881
Cyclic adenosine 3',5'-monophosphate levels in human parotid saliva at different secretion rates. Mornstad, H., *et al.* 441
Effect of NaF on rat parotid gland amylase activity and cAMP concentration *in vitro* and *in vivo*. Shahed, A.R., *et al.* 1126
Mitosis and hypertrophy of intercalated duct cells and endothelial cells in the isoproterenol-treated rat parotid gland. Hand, A.R., *et al.* 1031
Mouse parotid gland preparation: an *in vivo* pharmacological tool, The. Bobyock, E., *et al.* 1121

SUBMANDIBULAR

Age-dependent decreases in human submandibular gland flow rates as measured under resting and post-stimulation conditions. Pedersen, W., *et al.* 822
Effects of the selective β_2-adrenergic agonists, procaterole and terbutaline, on protein secretion by rat submandibular glands. Abe, K., *et al.* 886

SMOKING

Comparisons of various salivary parameters in smokers before and after the use of a nicotine-containing chewing gum. Olson, B.L., *et al.* 826
Smoking and periodontal disease in the Finnish population aged 30 years and over. Markkanen, H., *et al.* 932

SORBITOL (*see* Sweetening Agents)

SPECTROMETRY

Spectrometric analysis of the influence of metal substrates on the color of metal-ceramic restorations. Brewer, J.D., *et al.* 74

STAPHYLOCOCCUS

Comparison of the antibacterial and cytotoxic effects of parachlorophenol, A. Messer, H.H., *et al.* 818

STREPTOCOCCUS

NOTE: Articles that report on findings involving more than one strain of *streptococcus* are listed under this general heading. Articles reporting on a specific strain are listed under those particular sub-headings.

Anaerobic and aerobic metabolism of sorbitol in *streptococcus sanguis* and *streptococcus mitior*. Svensater, G., *et al.* 1286
Antigenic variation of indigenous streptococci. Beem, J.E., *et al.* 1039
Effect of oral nutrient limitation of gnotobiotic rats on acidogenesis properties of dental plaque formed by oral streptococci. Van Houte, J., *et al.* 815
Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24
Fluoride uptake and fluoride resistance in oral streptococci. Kashket, S., *et al.* 1290
Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377
pH change in artificial dental plaque formed by glucosyltransferase and some oral bacteria during batch and continuous culture. Takehara, T., *et al.* 447
Reduction of acidurance of streptococcal growth and glycolysis by fluoride and gramicidin. Bender, G.R. *et al.* 90
Surface free energy of oral streptococci after being coated with saliva and its relation to adhesion in the mouth, The. Weerkamp, A.H., *et al.* 1204

MITIOR

Effect of swallowing frequency on oral sugar clearance and pH changes by *streptococcus mitior in vivo* after sucrose ingestion, The. Lagerlöf, F., *et al.* 1229
Effects of different concentrations of sucrose, fructose, and glucose of pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405

MUTANS

Colonization of the human oral cavity by a strain of *streptococcus mutans*. Hillman, J.D., *et al.* 1272

Development of sustained-release antimicrobial dental varnishes effective against *streptococcus mutans in vitro*. Balanyk, T.E., *et al.* 1356
Effect of anti-oxidants on growth and lactic acid production by *streptococcus mutans*. Kupp, L.I., *et al.* 1016+
Effects of dietary carbohydrates on the numbers of *streptococcus mutans* and *actinomyces viscosus* in dental plaque of mono-infected gnotobiotic rats. de Jong, M.H., *et al.* 1134
Effects of extracellular plaque components on the chlorhexidine sensitivity of strains of *streptococcus mutans* and human dental plaque. Wolinsky, L.E., *et al.* 1051
Lactate dehydrogenase-deficient mutants of serotype *g streptococcus mutans*. Salem, H.H.H., *et al.* 1191
Lysozyme-mediated de-chaining of *streptococcus mutans* and its antibacterial significance in an acidic environment. Iacono, V.J. *et al.* 48
More *streptococcus mutans*, the more caries on approximal surfaces, The. Kristoffersson, K., *et al.* 58
Serotype *c streptococcus mutans* mutatable to lactate dehydrogenase deficiency. Abhyankar, S., *et al.* 1267
Streptococcus mutans and *lactobacillus* detection in the assessment of dental root surface caries risk. Ellen, R.P., *et al.* 1245

SANGUIS

Contribution of stereochemical interactions in the adhesion of *streptococcus sanguis* C5 to experimental pellicles. Gibbons, R.J., *et al.* 96
Effect of environmental conditions on the fluoride sensitivity of acid production by *s. sanguis* NCTC 7865. Marsh, P.D., *et al.* 85

STRONTIUM

Relation between caries prevalence and strontium concentrations in drinking water, plaque, and surface enamel, The. Curzon, M.E.J. 1386

SUBMANDIBULAR GLAND (*see* Salivary Glands)

SUCROSE (*see* Sweetening Agents)

SULFUR

Sulfur uptake by type I collagen from methyl mercaptan/dimethyl disulfide air mixtures. Johnson, P.W., *et al.* 1361

SWEETENING AGENTS

Anaerobic and aerobic metabolism of sorbitol in *streptococcus sanguis* and *streptococcus mitior*. Svensater, G., *et al.* 1286
Changes in plaque pH *in vitro* by sweeteners. Bibby, B.G., *et al.* 1130
Effect of swallowing frequency on oral sugar clearance and pH changes by *streptococcus mitior in vivo* after sucrose ingestion, The. Lagerlöf, F., *et al.* 1229
Effects of dietary carbohydrates on the numbers of *streptococcus mutans* and *actinomyces viscosus* in dental plaque of mono-infected gnotobiotic rats. de Jong, M.H., *et al.* 1134
Effects of different concentrations of sucrose, fructose, and glucose on pH changes by *streptococcus mitior* in an artificial mouth, The. Lagerlöf, F., *et al.* 405
Effect of some salts of calcium, sodium, potassium, and strontium on intra-oral enamel demineralization. Brudevold, F., *et al.* 24
Enamel microhardness change and plaque pH measurements in an intra-oral model in humans. Essig, M.E., *et al.* 1065
Sugar clearance from saliva and intra-oral spaces. Goulet, D., *et al.* 411

SWINE

Pharmacokinetics of chronic fluoride ingestion in growing pigs. Richards, A., *et al.* 425

TEMPOROMANDIBULAR JOINT

Malocclusion, masticatory muscle, and temporomandibular joint tenderness. Bush, F.M., *et al.* 129
Temporomandibular joint sounds related to orthodontic therapy. Sadowsky, C., *et al.* 1392

TERBUTALINE

Effects of the selective β_2-adrenergic agonists, procaterole and terbutaline, on protein secretion by rat submandibular glands. Abe, K., *et al.* 886

TETRACYCLINE

Dental caries and tetracycline-stained dentition in an American Indian population. Rebich, T., *et al.* 462

Photo-oxidation of tetracycline adsorbed on hydroxyapatite in relation to the light-induced staining of teeth. Davies, A.K., *et al.* 936

Systematic assessment of color removal following vital bleaching of intrinsically stained teeth. Seale, N.S., *et al.* 457

TOOTH (*see also* Molar)

Genetic variance in dental dimensions of Punjabi twins. Sharma, K., *et al.* 1389

TOOTH ABRASION

Dental attrition and craniofacial morphology in two Australian aboriginal populations. Richards, L. 1311

New microsample grinding technique for quantitative determination of calcium and phosphorous in dental enamel, A. Apap, M., *et al.* 1293

TOOTH CALCIFICATION

Appearance of dentin γ-carboxyglutamic acid-containing proteins in developing rat molars *in vitro*. Finkelman, R.D., *et al.* 1008+

Failure of PTH, calcitonin, or vitamin D metabolites to influence calcium transport in the maturation stage enamel organ. Bawden, J.W., *et al.* 1138

Importance of high pKa acids in cariogenic potential of plaque. Margolis, H.C., *et al.* 786

Influence of repeated APF applications on long-term remineralization of initial lesions in bovine enamel. Bodde, H.E., *et al.* 12

Influence of soluble pyrophosphate on calculus formation in adults. Mallatt, M.E., *et al.* 1159

Remineralization of softened bovine enamel following treatment of overlying plaque with a mineral-enriching solution. Pearce, E.I.F., *et al.* 416

TOOTH COLOR DETERMINATION

New method for matching tooth colors with color standards, A. Van Der Burgt, T.P., *et al.* 837

TOOTH, DECIDUOUS

Prevalence of dental fluorosis after fluoride-gel treatments in a low-fluoride area. Joost-Larsen, M., *et al.* 1076

Some physico-chemical properties of deciduous enamel of children with and without pre-natal fluoride supplementation (PNF). LeGeros, R.Z., *et al.* 465

TOOTH DISCOLORATION

Dental caries and tetracycline-stained dentition in an American Indian population. Rebich, T., *et al.* 462

Factors relating to dental stain formation in the rat. McDonald, J.L., *et al.* 810

Photo-oxidation of tetracycline adsorbed on hydroxyapatite in relation to the light-induced staining of teeth. Davies, A.K., *et al.* 936

Systematic assessment of color removal following vital bleaching of intrinsically stained teeth. Seale, N.S., *et al.* 457

TOOTH EXTRACTION

Changes in collagen types during the healing of rabbit tooth extraction wounds. Kurita, K., *et al.* 28

Survey of the reasons for dental extractions in France, A. Cahen, P.M., *et al.* 1087

TOOTH ROOT

Attachment, migration, and orientation of human gingival fibroblasts to collagen-coated, surface-demineralized, and untreated root slices. Lowenberg, B.F., *et al.* 1106

Depth of penetration of *in vitro* root surface lesions. Phankosol, P., *et al.* 897

Histopathology of the initial lesion of the root surface: an *in vitro* study. Phankosol, P., *et al.* 804

Inhibition of root surface caries in rice rats: use of a sodium fluoride dentifrice. Rosen, S., *et al.* 904

Longitudinal microbiological investigation of a hospitalized population of older adults with a high root surface caries risk. Ellen, R.P., *et al.* 1377

Longitudinal study of root caries: baseline and incidence data. Banting, D.W., *et al.* 1141

Streptococcus mutans and *lactobacillus* detection in the assessment of dental root surface caries risk. Ellen, R.P., *et al.* 1245

TOOTHPASTE

Plasma fluoride levels in man following intake of SnF_2 in solution of toothpaste. Ellingsen, J.E., *et al.* 1250

Urinary excretion of fluoride following ingestion of MFP toothpastes by infants aged two to six years. Drummond, B.K., *et al.* 1145

TURNER'S SYNDROME

Caries prevalence in Turner's Syndrome (45, X females). Takala, I., *et al.* 126

TWINS

Genetic variance in dental dimensions of Punjabi twins. Sharma, K., *et al.* 1389

ULTRATHINNING TECHNIQUE

Ultrathinning dental porcelain for transmitted light microscopy. Mackert, J.R., Jr., *et al.* 1170

URINE

Urinary excretion of fluoride following ingestion of MFP toothpastes by infants aged two to six years. Drummond, B.K., *et al.* 1145

VITAMIN A

Retinoic acid stimulates degradation of interstitial collagen fibrils by rat mucosal keratinocytes *in vitro*. Wells, B.R., *et al.* 1186+

VITAMIN D

Failure of PTH, calcitonin, or vitamin D metabolites to influence calcium transport in the maturation stage enamel organ. Bawden, J.W., *et al.* 1138

VITAMIN E

Alpha tocopherol alters the distribution of langerhans cells in DMBA-treated hamster cheek pouch epithelium. Schwartz, J., *et al.* 117

X-RAY DIFFRACTION

Structural changes in the oxidation zones of gold alloys for porcelain bonding containing small amounts of Fe and Sn. Ohno, H., *et al.* 67

XYLITOL (*see* Sweetening Agents)

YEASTS

Prevalence and significance of yeasts in persons wearing complete dentures with soft-lining materials, The. Wright, P.S., *et al.* 122
